## Bio

Front-End Web Developer based in South London, specialising in modern CSS, design systems, and the Vue.js ecosystem.

Advocate for universal accessibility and utilising platform standards to sustainably further positive web experiences.

Conscious and empathetic individual that prioritises open communication and empowering colleagues. Previous career in live events and music venue management.

## Employment

### **TixTrack - Front End Engineer**

**June 2022 - Present**

UI/UX and Design System specialist within a Front End Team migrating and extending an existing Angular monolith to a new Vue architecture, for international ticketing solutions for live events and museums - primarily for Broadway NYC and London's West End theatres.

### **Red Snapper - Junior Front-End Web Developer**

**October 2021 - June 2022**

Using Vue.js, SCSS, and TailwindCSS to implement dynamic UIs for Laravel and in-house CMS back-ends, as well as standalone microsites, for the London-based web design and development agency offering web implementations and consultancy for a variety of clients, including the BBC and British Medical Journal.

### **Corsica Studios - Assistant General Manager**

**March 2012 - November 2020**

Overseeing teams of up to 50 to ensure safe running of live music events for crowds of 1000+. Co-ordinating and engineering audio-visual equipment and technical requirements for international musicians and artists, as well as training and developing staff, for an independent arts and music organisation.

## Education

### **MSc, Computer Science - Distinction**

**September 2020 - September 2021**

Birkbeck, University of London

### **BA (Hons), Music and Sonic Media - Merit**

**September 2010 - June 2013**

London South Bank University
