Employment

TixTrack   06/2022-Present
Front End Engineer
www.tixtrack.com

International ticketing solutions for live events, museums, and attractions.

UI specialist and a11y champion within a Front End Team migrating and extending an existing Angular monolith to a new Vue component architecture, alongside finely honing a bespoke design system.

Red Snapper   10/2021-06/2022
Junior Front-End Web Developer
www.redsnapper.net

Web Design and Development agency based in Richmond, Surrey, offering web implementations and consultancy for a variety of clients, including the BBC and British Medical Journal.

Primarily tasked with using Vue.js, SCSS, and TailwindCSS to implement dynamic UIs for their Laravel and in-house CMS back-ends, as well as standalone statically generated microsites.
